

Dear FCCI have been a subscriber to XM Radio for 2 years. During that time I have benifited from listening as well as my patients since I have it in my office as well. Listening to XM Satelllite Radio and its traffic and weather channels affords me quality and variety not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
